

OLUWATIMILEYIN ADEYEMO

Data Analyst | SQL · Power BI · Excel · Python

+23490228003195 | Timileyinadeyemo35@gmail.com | [Linkedin](#) | [GitHub](#) | Ogba, Lagos

PROFESSIONAL SUMMARY

Data Analyst with years of experience extracting and analysing sales, and operational data to generate actionable insights that support inventory optimisation, and regional performance monitoring. Proficient in SQL, Power BI, Advanced Excel, and Python, with a strong track record of building dashboards, automating routine reports, and enabling fast decision-making for senior managers.

SKILLS

- **Sales & Supply Chain Analysis:** Regional sales volume analysis, top-performing product identification, stock level monitoring, inventory optimisation
- **Dashboard Development:** Power BI, Advanced Excel- campaign performance dashboards, KPI tracking, automated weekly and daily reports
- **Data Cleaning & Automation:** SQL, Python (Pandas, NumPy), Power Query
- **Reporting & Communication:** Translating raw data into actionable insights for senior staff and non-technical stakeholders

PROFESSIONAL EXPERIENCE

Business Intelligence Analyst | Coloured Spaces Ltd

Jan 2026 – Apr 2026

- Extracted and analysed multi-year sales and client performance data, identifying a 17.4% revenue decline and a reduction in active clients from 19 to 13 across regions.
- Monitored product and sector performance trends, identifying top-performing segments and surfacing revenue concentration risks to support sales strategy decisions.
- Built operational tracking dashboards and automated weekly and monthly performance reports, enabling senior managers to make fast, data-backed decisions.

Data Analyst | Selligate Fulfillments

Oct 2024 – May 2025

- Analysed last-mile delivery data across Lagos municipalities, developing a geographical risk-scoring model that decreased failed deliveries by 28%.
- Mined customer feedback and delivery time data to identify systemic delays at transit hubs, leading to targeted dispatch restructuring and automated reporting that accelerated stock replenishment decisions.
- Formulated and tracked operational KPIs that guided scaling from 500 to 2,000+ daily orders without degradation in service quality or stock availability.

PROJECTS

FMCG Commercial Performance & Regional Profitability

- Extracted and analysed \$34M in global FMCG sales data across regions, identifying top-performing products and flagging India as a critical underperformer at 3.8% profit margin vs. 7.2% in Canada.
- Monitored product-level profitability across markets, identifying low-margin products dragging regional performance and recommending product line pruning to improve overall margins.
- Built an interactive Power BI dashboard using DAX and Power Query to track sales volume, regional performance, and campaign profitability for executive decision-making.

Logistics Fleet Performance & Supply Chain Analytics

- Analysed 2,000+ delivery records across a 25-vehicle fleet, identifying a 62% idle fleet rate and recommending consolidation strategies to handle 30% more volume without additional assets.
- Monitored stock movement and regional delivery performance across Lagos zones, pinpointing Gbagada and Yaba as high-delay areas with a 29-minute average ETA error affecting fulfilment rates.

EDUCATION & CERTIFICATIONS

- BSc Mass Communication (Merit) — Federal University of Oye Ekiti | 2021 – 2025
- Business Analytics Specialization | University of Pennsylvania (Wharton School)
- Excel for Data Analysis
- TATA Forage Data Visualization
